

***The Child Resource Record (CRR) is a file that is kept in foster home's containing important documents and information about each foster child. Sections 1-4 are the most important to review as the GAL. The fifth section is important, but not critical to the well-being of the child. If you identify that there is information missing make a note of it and follow up with the caseworker and/or your case coordinator.

Section 1: Medical/Psychological/Social

- Medical contact log
- Child Health Physical Examination(Should be done in first 72 hours after removal)
